

Welspun CSR Times – November 2017

Education

1. Teacher's Training program

Project on Teaching at the right level was initiated in September 2017 with 15 government schools of Anjar. The objective of the program is to ensure that "Every Child in the Government School is learning as per their cognitive level". Below were few activities undertaken in November as a part of the project implementation.

2. Para Teachers–Case study

12 year old Ajay lives with his parents at Shinugra village of Anjar. He works as a helping hand to his parents who earn their living as daily wage labourers. Shital Rathod is a Para Teacher selected by Welspun, she teaches Hindi & English to 5th Std. students and takes responsibility of mainstreaming the weak students back to their respective classes. Ajay's name was in the list of weak students as he never attended school since the day he was enrolled in Std 1. Shital along with the Principal did home visits and counselled Ajay's parents on importance of education. Ajay gradually started to attend school, Shital paid special attention to Ajay's performance. Ajay who never attended school in the last five years now finishes his assignments before deadlines and is performing well in academics.

Story telling session

Community Library

3. Digital Education

Digital education software was installed in 5 government schools of Anjar, Vapi and Dahej. The aim is to enhance students' learning, create a platform for increasing their grasping power and delivering education for life-long learning.

Empowerment

1. Sports Sponsorship

National female cyclist sponsored by Welspun Ms. Yashodhara Sherkar won bronze medal in the 22nd Road national championship under cycling held at Jamkhandi, Karnataka.

Malaika Goel, an international shooter is sponsored by Welspun. She recently won silver medal in the women 10 mt Air Pistol Shooting event for DAV College at the Punjab University Inter-college shooting championship.

Environment

1. Awareness Drive.

An awareness program was organized in Anjar where the theme of the play was based on roles & responsibilities of every villager in making their village clean & green. Primary School students, Teachers, and Sarpanch showed active participation in this program.

2. Fodder Security

50 farmers were provided with training and kits to grow fodder for cattle rearing in Anjar. The program was carried out in 2 villages namely Khambra and Marigna. The fodder security is in progress where the farmers are harvesting it and re-growing the fodder.

3. Sanitation Block Construction

Anjar: 52 Toilet blocks completed against the target set of 125.

Vapi – 511 Toilet Blocks completed against the target set of 900.

Health

1. **Project Navchetana**- In order to curb malnutrition and anemia in children, adolescent girls and re productive age women, project Navchetana was initiated in 2016 at 4 villages of Anjar. This year the project was scaled up to 10 villages of Anjar and 5 villages of Vapi.

Current Status.

- Hemoglobin checkup of adolescent girls being undertaken in 10 villages of Anjar
- Training and meeting sessions with women in reproductive age is successfully running in 5 villages of Vapi
- Height and weight checkup of malnourished children is done on regular basis to monitor their growth

2. Insecticide for **mosquito fogging** is provided for free in a village near Delhi Meerut Highway. The population of the village is around 250. The intervention has helped the villagers to live a life free from mosquitoes in the house preventing them from diseases like malaria and dengue.

Model Village

What is a Model Village??

A Model Village is a sustainable rural community that is able to generate and maintain the resources necessary to improve its level of well-being and happiness without depleting economic, social & environmental values.

Welspun aims to through our E's.

1. Education – Ensure 100% enrolment of children in the primary schools and Anganwadis with their learning levels being equivalent to their class level.
2. Empowerment– Every household having a source of income in the 5 villages, every villager having Aadhar card, Voters' Card and Ration Card. Assistive devices for specially abled will be provided by facilitating government schemes.
3. Environment– 100 percent sanitation through toilet building and establish a sustainable waste management program
4. Health – Zero cases of malnutrition in the villages among children and women, 100% institutional delivery and immunization in villages in the functional primary healthcare centre
5. Infrastructure– Shops in the villages to meet basic needs, centralized public communication centres, ATM and pakka roads facility.

To achieve the above , following activities were undertaken in November:

1. Education: Installation of digital boards and software in primary schools. Teacher training programme organized to initiate the project on increasing the learning levels of children as per their age
2. Empowerment: Began analysis of differently abled existing in the villages
3. Environment: More than 50% of sanitation blocks built against every household in the villages
4. Health: Household visits of adolescent girls to conduct one on one counselling session on consuming food rich in iron. Focused group discussions with pregnant and lactating mothers on how to prepare food rich in nutrients at home

Quiz Time

Identify the CSR project!

1. Enhancing grasping power of the children with interactive learning
