Order Book position

- The current pipe order book position stands at around 1,040K MT (Rs. 71 billion).
- During the period between 5th August 2014 (Q1FY15 results reporting date) and 1st October 2014, the company has won orders of around 400K MT out of which about 190K MT of orders are from the US market, indicating a sustained recovery in that region. The company has also won orders of about 185K MT from MENA region.

BUSINESS UPDATE

Business Outlook

- The uptick in the North and South American market (especially US), appears to be sustainable with the outlook looking promising in the next year and beyond.
- For the MENA region, outlook continues to be promising although next year's order quality outlook leaves room for improvement compared to the current year.
- For the Indian plants, the export market will continue to be the major driver in the near term. As far as the domestic market is concerned, we expect some of the anticipated projects to become business relevant in the medium term.
- The plate and coil division was operational in Q2FY15, largely for captive consumption, and it is expected to continue operations in Q3FY15 as well.

Management comments

Commenting on the results, Mr. B. K. Goenka, Chairman, Welspun Corp said, "We are seeing signs of a strong and sustained demand improvement in line pipes. Our order inflow has seen an uptick in recent months and we feel that this would continue over the next several quarters. We have a strong order book in excess of 1 million tonnes and in addition to that, we have submitted bids for around 4 million tonnes. The improved demand-supply balance in the global market should help our realization and margins going forward and we are confident that this will translate to better financial results in the next year."
